## What is Breast Cancer?

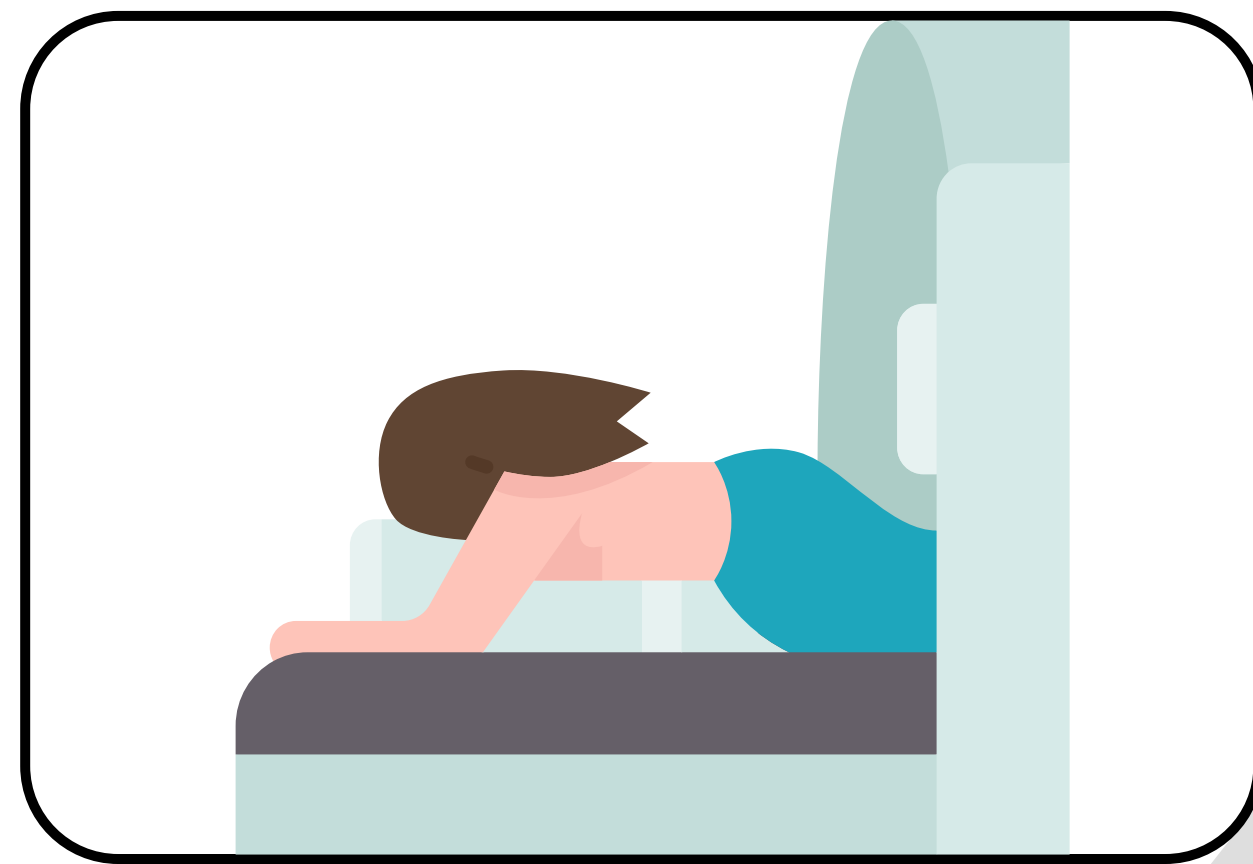

**Breast cancer is a disease in which malignant (cancer) cells form in the tissues of the breast.**

Cells in your breast grow and divide in an uncontrolled way, creating a mass of tissue called a tumor. Signs of breast cancer can include feeling a lump in your breast, experiencing a change in the size of your breast and seeing changes to the skin on your breasts.

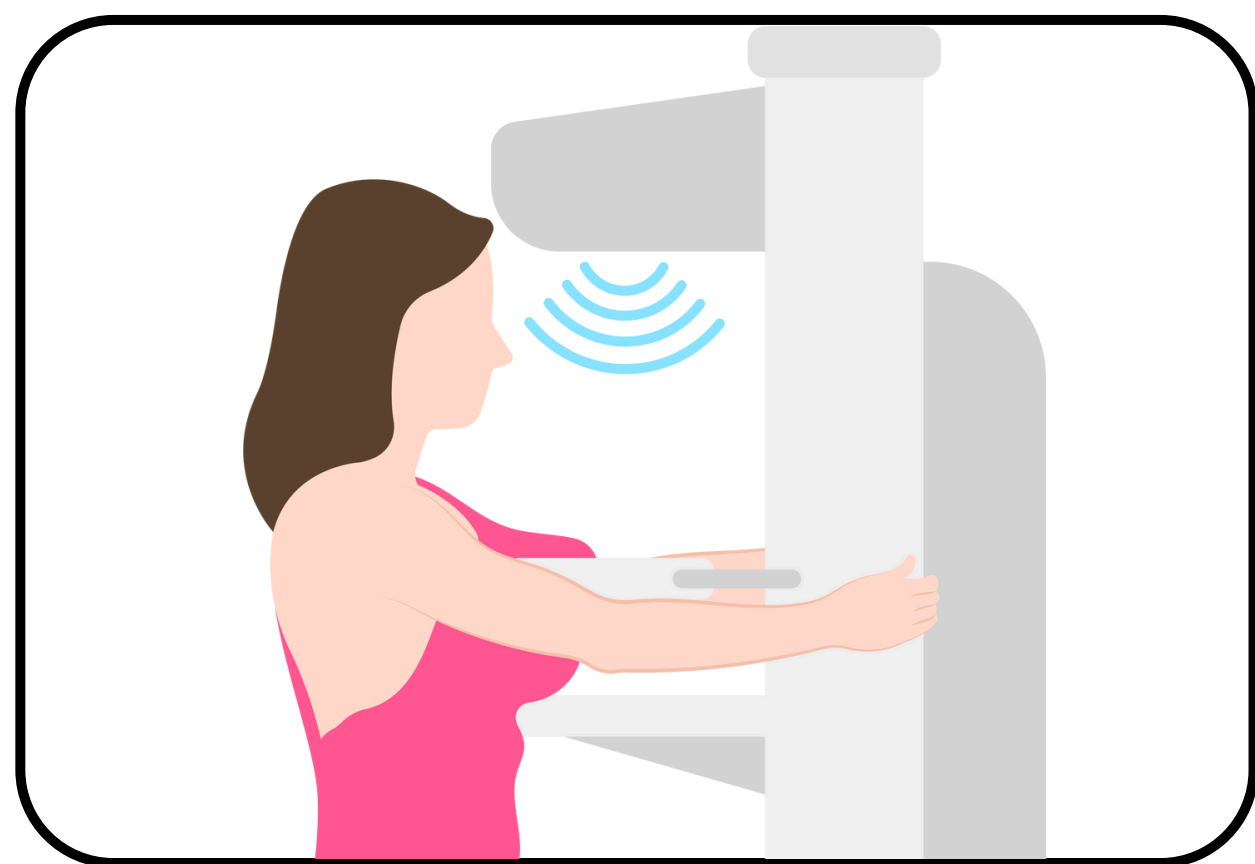

## Diagnosis of Breast Cancer

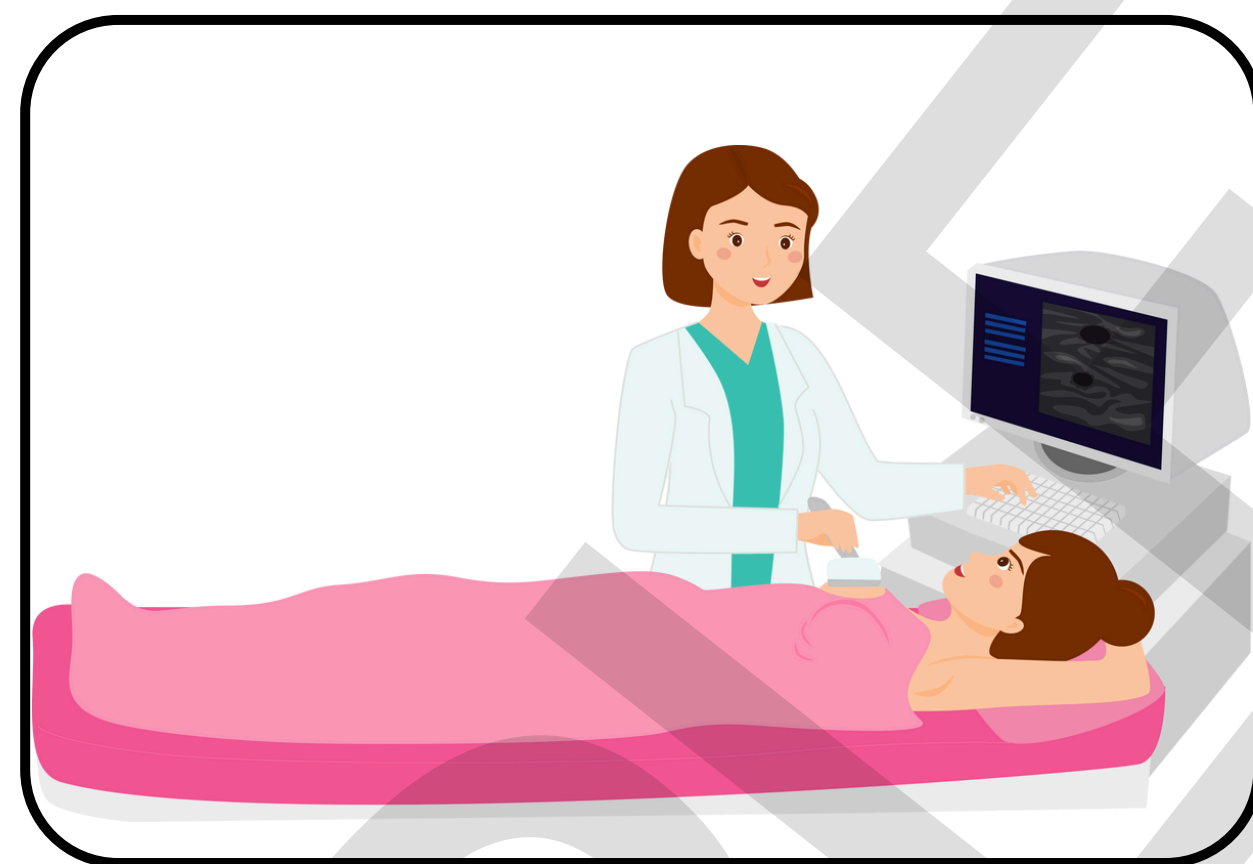

Breast Self Examination

Breast Mri

Mammography

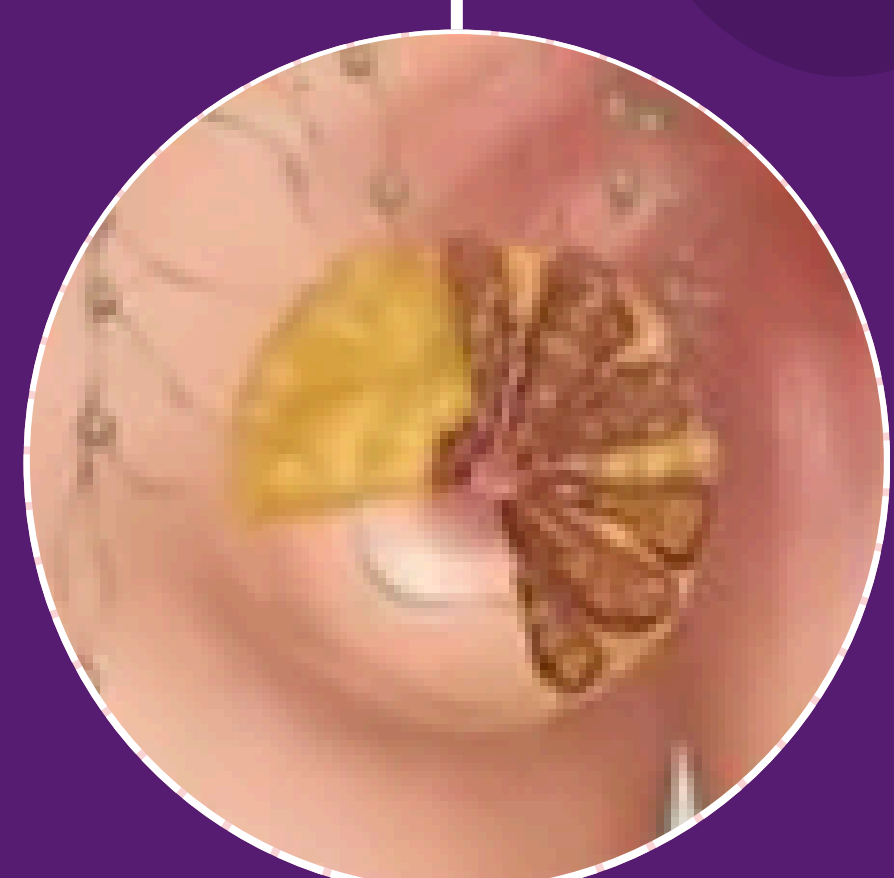

Breast Ultrasound
